[REGISTRATION FORM](#) | [CONSENT FORM \(PLEASE REVIEW\)](#)

ALL CONTENTS ON THIS SITE IS FOR INFORMATION AND IS NOT INTENDED TO SUBSTITUTE FOR THE ADVICE AVAILABLE FROM YOUR OWN MEDICAL PROFESSIONAL. ALTHOUGH STUDIES ARE NEW, THE INFORMATION HEREIN SHOULD NOT BE USED AS A MEDICAL DIAGNOSIS. ALL STUDIES SHOULD BE BROUGHT TO YOUR MEDICAL CARE PROVIDER FOR EVALUATION PURPOSES OR TO CONTINUE OR DISCONTINUE STUDIES. THE EXPERIENCE OF A CONSULTANT FOR THE FOOD AND DRUG ADMINISTRATION QUOTES, "IN GENERAL THE FDA DOES NOT REGULATE THE PRACTICE OF MEDICINE OR ANY OTHER HEALTH-RELATED PROFESSION. AS SUCH, IT IS UNLIKELY THAT YOUR PATENTED METHOD OF ELECTROLOGY WILL ACTUALLY RECEIVE APPROVAL FROM THE FDA. THIS ACTUALLY MAY BE A FORTUNATE ISSUE, AS IT GIVES YOU GREATER CONTROL OVER THE TEACHING AND DISSEMINATION OF THE METHOD."

## **Sub-Epidermal System Innovative Care, Inc.**

### **Clinical Research Consent Form**

**Sub-Epidermal System Innovative Care, Inc.** is conducting a study and appreciates your participation. The purpose of this consent form is to provide you the information regarding your participation. Please read the form carefully and inquire from the Sub-Epidermal System Innovative Care, Inc. Clinical Team any questions that you may have after reading this document. When all your questions have been answered, please sign at the end of this document. This process is called 'informed consent'.

#### **PURPOSE OF STUDY**

The purpose of this study is to provide safe and effective hair removal to eligible participants who have a documented history of failure with hair removal. These studies will record and document any findings that will support through photographic images, the photos will show the immune system is strengthened. Upon written request the findings will be available to the medical care provider.

#### **STUDY PROCEDURE**

Sub-Epidermal System Innovative Care, Inc. study procedure involves recording your current and past history in writing that includes real-time data. The study involves taking before and after photographic images of specific hair areas. The non-invasive method of documentation uses needle applications that never exceed the confines of the hair follicle.

#### **THE STUDY WILL PROVIDE**

Our intent is to provide documented data for early detection. You will receive validation of safe and effective methods for hair removal. This study will be provided at no cost to you. You will receive an initial consultation prior to study and a follow-up assessment preceding the end of the study. You will not receive any compensation or reimbursement of any expenses incurred by you as a result of your participation.

#### **ALTERNATIVES TO PARTICIPATING IN THIS STUDY**

Participating in this study is voluntary. If you choose to discontinue your participation after beginning this study, please inform Sub-Epidermal System Innovative Care, Inc. in writing, describing the reason for withdrawal as this information could be helpful to the conclusions of this study.

---

Sub Epidermal System Innovative Care Inc.(S.E.S) believes that our sustainability relies not only the good works of our volunteers and employees within but from the overall great support of the public, community agencies, resources and individuals servicing them so... we embrace the efforts of long lasting relationships through the following;

Partners

Match our mission by joining forces and become an extension of our services in efforts to offer a wider variety of resources easily accessed and available. We encourage all Health Care Practitioners, Medical Associations, Health Care Community Leaders, and other Non-profit Organizations with similar matching missions to join alliance with our organization and exhibit unity for the community!

Sponsors

Sub-Epidermal System Innovative Care, Inc. Request for local Businesses of the Health Care Communities who support our organizations mission to get involved in the transformation of new services in technology and become sponsors for the development of safe and effective technology.

Supporters

Sub-Epidermal System Innovative Care, Inc. Rely on and appreciate the support of other agencies and the individuals who serve them. Our program encourages those wishing to build strong alliances and extensions of resources to extend their measure of support through us!

Donors

Sub-Epidermal System Innovative Care, Inc. Appreciate the individual concerns of our community who understand that contributions can be made in many ways but the only way is to extend your concern.

Our program believes donating

will open the options for others who don't have many available.

Visit our [donate](#) page.

At this time we like to thank all public non-profit locations for doing an excellent job in keeping our community aware of our mission.

If any persons would like to send suggestions of public nonprofit agencies that would benefit from our resources feel free to contact us!
